

# SAFETY DATA SHEET (SDS)

Section 1. Identification								
Product identifie		<u> </u>	-PRO 32					
Other means of identification 555								
Recommended use and restrictions on use 100% SYNTHETIC LUBRICANT FOR HYDRAULIC SYSTEMS								
<b>Initial supplier identifier</b> PROLAB TECHNOLUB INC. 4531 RUE INDUSTRIELLE, THETFORD MINES, (QUEBEC), G6H 2J1,								
CANADA TEL. (418) 423-2777         FAX : (418) 423-7619           Emergency telephone number/restriction on use         Canada – CANUTEC 24 hour number 613-996-6666								
Section 2. Hazard identification								
Classification of hazardous product (name of the category or subcategory of the hazard class)								
NOT REGULATED								
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)								
None								
Other hazards known None								
Section 3. Composition/information on ingredients								
Chemical name (	common	name	e/synonym	5)			CAS number or other	Concentration (%)
White mineral oil					Section	4 Timet and	8042-47-5	< 3
Inhalation			Domorro	amon to f		4. First-aid	t <b>measures</b> rtable for breathing. Call a doctor if y	you fool umuull
Ingestion							NDUCE VOMITING. NEVER give	
ingestion							g. Rinse mouth thoroughly with wate	
							ward to reduce risk of aspiration.	
Skin contact							vith water (5-10 minutes).	
Eye contact							es (5-10). Remove contact lenses, if p	present and easy to do. Continue
			irritation p					
Most important s						Transient ey		
Indication of imr	nediate m	iedica	al attentior				call a doctor. Do not forget this doct	ument.
G (C) 1	6.41 1						ng measures	
Specific hazards						istion produc	ets)	
Carbon oxides and other irritant/toxic gases and fumes. Suitable and unsuitable extinguishing media								
					agent and a	ppropriate foa	am to extinguish surrounding product	ts
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products. Special protective equipment and precautions for fire-fighters								
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper								Firefighters should wear proper
protective equipme	ent and sel	lf-con	tained breat	hing appa	ratus with f	full facepiece.	Shield personnel to protect from ven	ting, rupturing or bursting cans.
Move containers f	rom fire ar	rea if i	it can be do				be useful in cooling equipment and ca	ns exposed to heat and flame.
Section 6. Accidental release measures								
Personal precautions, protective equipment and emergency procedures								
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should								
wear the appropriate protective equipment (See Section 8). Methods and materials for containment and cleaning up								
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then								
place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.								
Notify the appropriate authorities as required.								
Section 7. Handling and storage								
Precautions for s								
Wear gloves/protective clothing/eye protection/face protection.								
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene								
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid								
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep								
away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to								
Section 8.								
Conditions for safe storage, including any incompatibilities								
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of								
obstruction and ac								i be clearly identified, clear of
sourceion and ac		iny it	s auneu pe	i sonner. I	inspect peri	Salculty 101 U	anage of leaks.	

## Section 8. Exposure controls/Personal protection

### Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: None

#### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and c	hemical properties							
Appearance, physical state/colour         Yellow liquid	Vapour pressure         Not available							
Odour Oil	Vapour pressure         Not available							
Odour threshold Not available	Relative density         0.8387							
<b>pH</b> Not available	Solubility Not available							
Melting/freezing point <-52°C	Partition coefficient - n-octanol/water Not available							
Initial boiling point/range Not available	Auto-ignition temperature         Not available							
Flash point     226 °C	Decomposition temperature         Not available							
Evaporation rate     Not available	Viscosity 30.45 cSt @ 40°C							
Flammability (solids and gases) Not available	VOC Not available							
Upper and lower flammability/explosive limits Not available	Other None known							
Section 10. Stability and reactivity								
Reactivity								
Does not react under the recommended storage and handling conditions prescribed.								
Chemical stability								
Stable under the recommended storage and handling conditions prescribed.								
Possibility of hazardous reactions								
None known.								
Conditions to avoid (static discharge, shock or vibration)								
None known.								
Incompatible materials								
Oxidizing materials; etc.								
Hazardous decomposition products								
None known								
Section 11. Toxicologi	ical information							
Information on the likely routes of exposure (inhalation, ingestion, skin a								
May cause transient eye irritation. Symptoms related to the physical, chemical and toxicological characteristics								
Eye irritation, redness, tearing.	5405							
Delayed and immediate effects (chronic effects from short-term and long	z-term exposure)							
Skin Sensitization – No data available;								
Respiratory Sensitization – No data available;								
Germ Cell Mutagenicity – No data available;								
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;								
Reproductive Toxicity – No data available;								
Specific Target Organ Toxicity — Single Exposure – No data available;								
Specific Target Organ Toxicity — Repeated Exposure – No data available;								
Aspiration Hazard – No data available;								
Health Hazards Not Otherwise Classified – No data available;								
Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )								
None								
ATE not available in this document.								
Section 12. Ecological information								
Ecotoxicity (aquatic and terrestrial information)								
No data available for the product.								
Persistence and degradability         No data available								
Bioaccumulative potential No data available								
Mobility in soil No data available								
Other adverse effects No data available								

Section 13. Disposal considerations								
Information on safe handling for disposal/methods of disposal/contaminated packaging								
Dispose of contents/container into safe container in accordance with local, regional or national regulations.								
Section 14. Transport information								
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations								
NOT REGULATED								
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)								
NOT REGULATED								
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)								
NOT REGULATED								
	precautions (transport/conveyance) None							
· · ·	al hazards (IMDG or other) None							
Bulk transport (usually more than 450 L in capacity) Possible								
Section 15. Regulatory information								
Safety/health C	<b>Canadian regulations specifics</b> Refer to Section 2 for the appropriate classification. This product has been classified in accordance							
Survey, neuron c	with the hazard criteria of the Hazardous Products Regulations (HPR).							
Environmental	Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL							
	nvironmental outside regulations specifics							
	SHA information: This product is regulated according to OSHA (29 CFR).							
	PA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.							
	CSA information: Refer to the ingredients listed in Section 3.							
	National Fire Protection Association (NFPA):							
HEALTH: 0	FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.							
	HAZARD SCALE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$							
	sition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
