Inhalation	IF INHALED: Remove person to fresh air and keep comfor	rtable for breathing. Call a doctor if y	ou feel unwell.		
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is				
	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses				
	of water. If vomiting occurs naturally, have victim lean for	ward to reduce risk of aspiration.			
Claim contract	If skin irritation occurs: Get medical attention. Rinse skin with water (5-10 minutes).				
Skin contact					
Eye contact	IF IN EYES, Rinse cautiously with water for several minute	es (15-20). Remove contact lenses, if j	present and easy to do. Continue

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 471-34-1 PEL-TWA – 15 mg/m³ (total) & 5 mg/m³ (respirable);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties					
Appearance, physical state/colour Grey grease	Vapour pressure Not available				
Odour Oil	Vapour density Heavier than air				
Odour threshold Not available	Relative density 1.04				
pH Not available	Solubility Negligible				
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available				
Initial boiling point/range Not available	Auto-ignition temperature Not available				
Flash point175 °C (ASTM D92)Decomposition temperatureNot available					
Evaporation rate Not available	Viscosity 33 cSt @ 40°C (Base oil)				
Flammability (solids and gases) Not available	VOC Not available				
Upper and lower flammability/explosive limits Not available	Other None known				
Section 10. Stability and reactivity					
Reactivity					
Does not react under the recommended storage and handling conditions prescribed.					
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None known.					
Conditions to avoid (static discharge, shock or vibration)					
None known.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					

Section 11. Toxicological information			
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)			
Causes mild skin irritation. Causes serious eye irritation.			
Symptoms related to the physical, chemical and toxicological characteristics			
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing.			
Delayed and immediate effects (chronic effects from short-term and long-term exposure)			
Skin Sensitization – No data available;			
Respiratory Sensitization – No data available;			
Germ Cell Mutagenicity – No data available;			
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;			
Reproductive Toxicity – No data available;			
Specific Target Organ Toxicity — Single Exposure – No data available;			
Specific Target Organ Toxicity — Repeated Exposure – No data available;			
Aspiration Hazard – No data available;			
Health Hazards Not Otherwise Classified – No data available;			
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)			
CAS 471-34-1 LD ₅₀ Oral - Rat - 6450 mg/kg;			
ATE not available in this document.			
Section 12. Ecological information			
Ecotoxicity (aquatic and terrestrial information)			
No data available for the product.			
Persistence and degradability No data available			
Bioaccumulative potential No data available			
Mobility in soil No data available			
Other adverse effects No data available			
Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging			
Dispose of contents/container into safe container in accordance with local, regional or national regulations.			
Section 14. Transport information			
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations			
NOT REGULATED			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime) NOT REGULATED			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air) NOT REGULATED			
Bulk transport (usually more than 450 L in capacity) Possible			
Section 15. Regulatory information			
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accord with the hazard criteria of the Hazardous Products Regulations (HPR).	Jance		
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL			
Safety/health/environmental outside regulations specifics			
United States OSHA information: This product is regulated according to OSHA (29 CFR).			
United States COSTA Information: This product is regulated according to OSTA (25 CFK). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.			
United States TCSA information: Refer to the ingredients listed in Section 3.			
National Fire Protection Association (NFPA):			
HEALTH: 1 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.			
HEALTH: 1FLAMMABILITY: 1INSTABILITY: 0SPECIAL HAZARDS: Refer to Section 2 & 3.HAZARD SCALE: 0 = Minimal1 = Slight2 = Moderate3 = Serious4 = Severe
